

Hon'ble Speaker Sir,

At the outset, I express my gratitude to you Sir, and Hon'ble Chief Minister for having given me an opportunity to present the budget for the financial year 2008-09 in this August House. I also express my deep gratitude to Hon'ble Leader of the Opposition and Hon'ble Members of this House for having given me unstinted support in the previous years. It is a privilege on my part to present the budget for consecutive 5th year. It was a challenge for our Government to overcome the critical financial condition of the State. We had accepted the challenge with all humility. I hope and believe that your help and cooperation will be available as before, in coming years for the State to move ahead with financial discipline.

2. The steps taken for improvement of fiscal management of the State, steps taken for different poverty eradication as well as developmental programmes and the future plan and programme of the State have been dealt in detail in the Address of His Excellency the Governor of Orissa. Without repeating the same I deem it proper to highlight the budget estimate of the Financial Year, 2008-09.

3. Our resources are limited but our requirements are many. State's progress depends on higher mobilization of resources and proper utilization of such resources. In this perspective, attention has been given in some thrust areas in the budget for 2008-09 keeping in view the limited resources as well as overall development of the State. These are :-

- ☞ To achieve fiscal targets as indicated in Section-5 of Orissa Fiscal Responsibility & Budget Management Act.
- ☞ Recommendation of the 12th Finance Commission.
- ☞ Utilization of limited resources on priority basis.
- ☞ To increase the States share in order to avail more Central Assistance.
- ☞ To limit the non-plan revenue expenditure as far as possible.
- ☞ To enhance capital investment for Infrastructure Development.
- ☞ To improve the quality in health service and health infrastructure.
- ☞ Development of School Education, Higher Education and Technical Education.

- ☞ Development of Agriculture and allied activities.
- ☞ Development of Industries, Cottage Industries and Handicraft Industries.
- ☞ Development and expansion of irrigation.
- ☞ Improvement in water supply and sanitation in urban and rural areas.
- ☞ Development of Rural areas.
- ☞ Development of Information and Technology.
- ☞ Optimum utilization of resources and generating self-employment.
- ☞ Development of mineral based industries in the State.
- ☞ Rural electrification.
- ☞ Completion of the incomplete projects by prioritizing the outlay.
- ☞ Wellbeing and provision of social security measures to old people, disabled, women, Scheduled Tribes & Scheduled Castes and other economically weaker sections.
- ☞ Allocation of more funds for maintenance of Government buildings, roads and bridges and water supply projects etc.

4. For information of Hon'ble Members of this august House, I intend to indicate that during the last few years State Government have taken several expenditure rationalization and revenue augmentation measures along with other fiscal reform programme to improve the fiscal situation of the State. As a result, after a gap of 22 years the revenue surplus of our State has become Rs.481.19 crore by the end of financial year 2005-06. This revenue surplus scenario is also continuing in subsequent year. Not only that, for the first time our State has become a fiscal surplus State during the financial year 2006-07. It is needless to say that during this year the fiscal surplus of our State is Rs.823.18 crore. It may be mentioned here that while the revenue expenditure was Rs.13,603.52 crore in 2005-06, it increased to Rs.15,772.02 crore in 2006-07. On the other hand, while the revenue receipt was Rs.14084.71 crore in 2005-06, it has increased to Rs.18032.62 crore in 2006-07. While the State's own tax revenue was Rs.5002.28 crore in 2005-06, It has increased to Rs.6065.06 crore in 2006-07, the growth rate being 21.25%. Similarly, State's own non-tax revenue has also improved remarkably because of sincere efforts of the State Government. While State's own non-tax

revenue was Rs.1531.91 crore in 2005-06, it increased to Rs.1824.32 crore in 2006-07, the growth rate being 19.09 %. Besides taking into account the State's entitlement of 763.80 crore debt relief the total non-tax revenue is of the order of Rs.2588.12 crore.

5. There has been remarkable improvement in the fiscal condition of the State because of sincere efforts of the State Government in resource mobilization and expenditure rationalization measures. As a result, State Government have neither resorted to overdraft nor to ways & means advance from Reserve Bank of India since 1.12.2004. Letter of Credit (LC) has been given to the Departments engaged in developmental activities as per their requirement.

6. Our capital expenditure is also increasing due to the improvement in the fiscal condition. While the capital expenditure during the financial year 2005-06 was Rs.1038.06 crore during the financial year 2006-07, it increased to Rs.1451.47 crore. Similarly, as per Revised Estimate for the financial year 2007-08, capital expenditure is Rs.2740.38 crore and the same is Rs.3019.63 crore in the Budget Estimate for 2008-09.

7. While the State Plan outlay which was fixed at Rs.3500.00 crore as per Budget Estimate for 2006-07, it increased to Rs.3600.00 crore in the Revised Estimate for 2006-07. During the financial year 2007-08, the State Plan outlay has been increased to Rs.5105.00 crore in 2007-08 as per Budget Estimate and according to the Revised Estimate, it is Rs.5520.00 crore. What is important is that the earlier State Plan outlay was within Rs.2500.00 crore to Rs.3000.00 crore although, the net loan was on the higher side. But now the State Plan size has been increased substantially despite the fact that net loan has not been increased proportionately. For example, while for the State Plan of Rs.3200.00 crore during the financial year 2003-04 the net loan was Rs.2463.93 crore, the net loan has been estimated at Rs.2700.11 crore for the State Plan of Rs.7100.00 crore in the financial year 2008-09. The State Plan outlay is fixed after discussion of Hon'ble Chief Minister with Deputy Chairman, Planning Commission. The State Plan Outlay for 2008-09 has been kept at Rs.7100.00 crore keeping in view, the necessity of different developmental programmes, even though, the discussion in this respect is yet to take place. This

estimated increase is around 39% in comparison to the previous year. Such increase in plan size has become possible because of structural change in fiscal management of the State. I am thankful to all for their cooperation in achieving this.

8. Budget provision for the year 2008-09 has been made keeping in view the expectations of the common man of the State. While in the budget for the financial year 2007-08 provision under State Plan, Central Plan, Centrally Sponsored Plan and Non-Plan was Rs.4623.34 Crores, Rs.549.13 Crores, Rs. 821.85 Crores and Rs.17517.28 Crores respectively, in the budget estimates for 2008-09 this has been increased to Rs.6581.88 Crores, Rs.538.95 Crores, Rs.1204.37 Crores and Rs.19623.29 Crores respectively.

9. Keeping in view various needs of the people of the State the popular Government under the leadership of Hon'ble Chief Minister Shri Naveen Patnaik have provided funds in the budget on priority basis for accelerated development of the State and welfare of the people. Our Government is committed for social and economic development of the poor and other people who are at the lowest rung of the society. Despite limited resources our Government

has provided funds for the budget out of its own resources for programmes like 'Mo Kudia Yojana', inclusion of 3 Lakhs additional beneficiaries in 'Madhu babu Pension Yojana', operation of mobile health unit in tribal and under developed areas, improvement of Hirakud command area, financial assistance to 1 lakh Self Help Groups (SHGs), Subsidy for distribution of rice under Public Distribution System, 'Jalanidhi', Supply of equipments for AIDS detection, increase of Pre-Matric Scholarship from Rs.20/- to Rs.100/-, Scholarship for 10,000 students pursuing higher studies in professional education like Engineering, Medicine, MBA and MCA @Rs.10,000.00 per annum and infrastructure development, preservation of ancient heritage and development of tourist places etc.

10. You are aware that the earlier Central Assistance to State Government had the grant and loan component in the ratio of 30:70. But as per the recommendation of the 12th Finance Commission the State Government is now arranging the loan portion of the Central Assistance on its own. The system has been made effective from 2005-06. Moreover, as per the recommendation of the 12th Finance Commission,

Government of India determines the upper limit of loan in respect of States from year to year.

11. Taking into account the State's Own Tax, Non-Tax Revenue and State's share from Central Taxes and Grant-in-Aid from the Centre the States total revenue receipts during the financial year 2007-08 was estimated at Rs.19467.20 Crores and the revenue expenditure was estimated at Rs.18421.44 Crores. As against the revenue surplus of Rs.2260.60 Crores for the year 2006-07 and Rs.1682.23 Crores in the revised estimate for the financial year 2007-08 revenue surplus has been estimated at Rs.563.87 Crores for 2008-09. On the other hand, in the capital account the estimated expenditure would be more by Rs.893.59 Crores compared to the receipts. The expenditure on account of the capital outlay, disbursement of loan and repayment of installment of earlier loans taken together would be more than the receipt from the loans and advances from different sources together with the recovery of loans. In toto, the deficit in the consolidated funds has been estimated at Rs.329,72,20,000/- and equal amount has been estimated as surplus in the Public Account. It means that receipts and expenditure have been balanced

taking into account the Revenue Account, Capital Account and Public Account together. Hence this is a balance budget with revenue surplus.

12. In the context of limited resources, I intend to make it clear that in order to achieve faster growth of the State, we have to increase growth rate in sectors like Agriculture, Fisheries & Animal Resources Development etc. Hence, our Hon'ble Chief Minister is laying emphasis on development of Agriculture and Allied sector activities. You will be happy to know that under Watershed Plus Programme a new scheme named Jeebika has been taken up in 6 Tribal Districts of Mayurbhanj, Kandhamal, Rayagada, Nawrangpur, Malkangiri and Koraput. For this scheme Rs.7.00 crore was provided in the Budget for 2007-08. Equal amount has also provided in Budget for 2008-09. 2270 nos. of farmers have been sent to outside the State during the current financial year to acquire better experience and exposure in the field of agriculture and horticulture. Moreover, 10150 nos. of unemployed youths have been trained for Self-employment in horticultural activities during the current year. This programme shall also continue in next financial year 2008-09. Similarly, 5 more Districts i.e. Angul, Bargarh, Deogarh, Sambalpur and

Sundargarh totaling to 24 Districts have been included under National Horticulture Mission. You will be glad to know that 21.20 lakhs of different Quality Planting Materials (QPM) produced in Government Farms and private Nurseries during 2006-07 have been utilized in 2007-08. There is a programme to produce 30 lakhs of QPMs during 2008-09.

13. All of you know that irrigation is complementary to agriculture. Hence in order to increase agricultural productivity, there is necessity for extensive irrigation in non-irrigated areas. Necessary potential for irrigation is available in our State. Hence, Government have planned for creation of extensive irrigation facilities during 11th Five Year Plan and targeted to complete the incomplete Major & Medium Irrigation Projects in 11th Five Year Plan, which could not be completed during 10th Plan period. You will be glad to know that Hon'ble Chief Minister has declared the year 2008-09 as "**Irrigation Year**". During 11th Plan period, it has been targeted to provide irrigation facilities to atleast 35% of total land area in each Block of the State.

14. All steps are being taken to attract private investors for establishing industries in the State. The State Government have adopted Single Window

Clearance Mechanism, transparent procedure and a well planned Rehabilitation & Resettlement Policy for this purpose. So, private investors have been attracted for investment especially in establishing mineral based industries in our State. Thus, there is immediate necessity of investment for infrastructure development in these areas like road, railway, generation and distribution of electricity etc. I would like to inform the Hon'ble Members of this August House that our popular Government are giving due importance to Public Private Partnership for infrastructure development especially, in construction of port, road and bridges etc.

15. It is pertinent to mention here that while there was provision of Rs.300.00 Crore for Rural Infrastructure Development Programme in the Budget for 2007-08, the same has been increased to Rs.465.00 Crore in the Budget for 2008-09. Similarly, while there was a provision of Rs.464.28 crore in the Budget for 2007-08 for Accelerated Irrigation Benefits Scheme, there is a provision of Rs.800.00 crore in the budget for 2008-09 for this scheme. While there is provision of Rs.62.25 crore for Jawaharlal Nehru Urban Renewal Mission in the Budget for 2007-08, a sum of Rs.95.25 crore has

been provided in the Budget for 2008-09. For information of Hon'ble Members of this August House, I want to make it clear that compared to previous years, substantial provision has been made in the Budget towards State share of Centrally Sponsored Plan. For example while Rs.662.67 crore was provided towards State share of schemes under Centrally Sponsored Plan in the Budget for 2007-08, this has been increased to Rs.1128.21 crore in 2008-09 in order to avail more Central assistance.

17. Important Expenditure in Other Sector

Besides I would like to point out important expenditure provisions in other sectors.

Expenditure
towards
maintenance
and
constructions
of Roads,
Govt.
Buildings and
Residential
Buildings

- ❖ As against the provision of Rs.1546.29 cr. in the Original Budget for 2007-08 towards maintenance and construction of Govt. Buildings, residential buildings of Govt. Servants, Roads and supply of drinking

External
Aided
Projects

- ❖ Rs.762.86 cr. has been kept in the Budget for 2008-09 for different Externally Aided Projects.

18. I want to point out here that debt stock as percentage of GSDP is high. It is a fact that loan is required for development of the State. But the loan should be limited keeping in view, State's total revenue. While considering the debt sustainability the economists have opined that it should be within 300% of the State's total revenue. I want to make it clear that while the debt stock to total revenue was

324% in 1998-99, the same has decreased to 206.6% by the end of 2006-07. Similarly, as per the recommendations of 12th Finance Commission, the ratio of interest payment to total revenue receipt should ideally be 15%. While the ratio of interest payment to total revenue receipt was 32.6% in 1998-99, the same has been decreased to 17.7% in 2006-07. Further, according to recommendations of 12th Finance Commission, the ratio of debt stock to GSDP should be limited to 28%. In this context it may be pointed out that while the ratio of debt stock to GSDP was 46.42% in 2005-06, the same has been decreased to 40.87% in 2006-07. State Government are making sincere efforts to reduce debt stock.

19. The net loan (total loan incurred – loan repaid) which was earlier increasing is now showing a declining trend. While the net loan incurred was Rs.3832.77 crore in 2003-04, Rs.2417.22 crore during 2004-05 and Rs.2405.27 crore during the year 2005-06, the same has been significantly reduced to Rs.793.06 crore by the end of 2006-07.

20. I have earlier indicated about reduction in revenue deficit. The State Government have been able to save Rs.144.47 crore towards interest payment by swapping high cost loan of Rs.2543.62

crore with low cost loan under Debt Swap Scheme of Government of India. State Government have resorted to debt by back and pre-payment of high cost market loan amounting to Rs.394.61 crore, in order to reduce the debt burden. Because of this more funds are available for developmental work.

21. State Government had put forth demand for consolidation of high cost NSSF loans to low cost loan and for prepayment of this loan before Central Government. As Government of India agreed for prepayment of this high cost of NSSF loan amounting to Rs.199.72 crores. The State Government prepaid the same. By this way interest burden will be reduced and more funds will be available for developmental work and infrastructure development.

22. As per recommendations of the 12th Finance Commission, State Government have been able to get debt relief to the tune of Rs.763.80 crore for the fiscal performance during 2004-05 and 2005-06 @ Rs.381.90 crore. The State Government may also get the equal amount of debt relief amounting to Rs.381.90 crore for the fiscal performance in 2007-08.

23. In a democratic as well as welfare State, it is the first and foremost duty of the Government to look after the welfare of the common people. Taxes which are elastic are being controlled by Government of India. Because of policy of the Central Government, royalty on coal and other minerals is not being revised in time. Whatever assistance was given towards loan by Central Government is now being arranged by the State Government. Hence, it is not possible to spend for State Plan Outlay without incurring loan.

24. Favourable environment has been created for establishment of heavy industries in Iron & Steel, Aluminum, Cement, Petroleum and I.T. sectors. Hence, development of Human Resources is essential for this purpose. Government are taking steps for improvement in Vocational and Technical Institution on Public Private Partnership basis. Our Government are time and again demanding before Central Government for establishment of Central University, IIT and IIM in the State.

25. In the context of limited resources, I want to make it clear that State Government is giving emphasis on proper utilization of the provision made in the Budget for developmental work of the State and completion of incomplete projects. 60 projects

costing Rs.1.00 crore and above (Water Resources-8, Rural Development-28, Works-20, Tourism-3 and Industry-1) have been identified for completion during 2007-08. Besides, 107 nos. of projects including 47 projects which could not be completed during 2006-07 have been targeted for completion during 2007-08.

26. I may mention here that timely and proper utilization of Central Assistance for different Central Schemes and improvement in submission of Utilisation Certificate is the responsibility of the Government. There has been improvement in submission of U.C. because of constant review and monitoring by Government. For example, while there was submission of UC to the tune of Rs.2470.58 crore in 2005-06, it was of the order of Rs.2852.25 crore in 2006-07. U.C. to the tune of Rs.2572.12 crore have been submitted by the end of November of current financial year.

27. You are all aware of the fact that in the mean time 13th Finance Commission have been constituted by Government of India. In this context, I seek your co-operation to put forth our genuine demand and suggestion before 13th Finance Commission.

28. The firm determination of the Hon'ble Chief Minister to usher in the fiscal reform programme in the past has yielded positive results on many fronts. This reform programme has to be carried forward. We have to go a long way with perseverance and confidence to achieve the goal. It is the moral responsibility of all the citizens of the State to work for the all round development of the State. It is my firm belief that the Budget Estimate for 2008-09, placed in this august House, will help in meeting the needs and aspirations of the common man and accelerate the development process of the State.

29. Hon'ble Speaker Sir, while presenting the State's Budget for 2008-09, I earnestly seek the co-operation of all Members of the House cutting across party lines. I sincerely convey my thanks to the Chair, Honble Chief Minister and Leader of the House, Hon'ble Leader of the Opposition and all the Hon'ble Members for giving a patient hearing to my long and arduous speech. May the ensuing financial year bring cheer and happiness to all of us by the grace of the Lord Shri Jagannath for which I sincerely pray.
