Part-II

General

Speaker Sir,

Now I come to the second part of my Budget Speech, i.e. the General Budget.

2. Macro Economic Outlook

2.1 After prolonged recession, the Global economic scenario has shown signs of recovery during the second half of 2013-14 and is expected to improve further in 2014-15. The signal has come mainly from advanced economies, although their recoveries are at different speeds. Structural constraints continue to affect growth prospects of emerging market economies. On the whole the global economy scenario is uneven.

2.2 Indian economy is projected to show a gradual recovery during 2014-15. Against the provisional estimate of GDP growth of 4.7% in 2013-14, it is projected to grow around 5.5 per cent in 2014-15. With a new Government in place at the centre, there are expectations of revival of growth and hope for gradual recovery in course of the financial year.

2.3 In spite of the global uncertainty, the growth forecast for the State’s Economy in 2013-14 according to the Advance Estimates is 5.6%. Though this is an Advance Estimate, this clearly points to the fact that the State Economy continues to grow at a higher rate than the national economy.
2.4 Like the national economy, it is also expected that there would be slow recovery in the State's economy during the current fiscal. Though no growth forecast for the year is available, the growth rate of GSDP in 2014-15 is projected at 6.5% in the underlying assumptions for the fiscal indicators.

3. Fiscal Management during last Five Years

3.1 Sound fiscal position and prudence in management of finances of the State has been one of the major achievements of our Government. Odisha Fiscal Responsibility and Budget Management Act, 2005 has been the guiding principle for fiscal consolidation. I would like to inform the August House that according to an index of fiscal health constructed for composite fiscal ranking of the States, our State has secured the highest rank.

We have been maintaining revenue surplus consistently since 2005-06. Our fiscal deficit has been kept within 3% of the GSDP since 2004-05. Our tax GSDP ratio has been in the range of 5.5 to 6% from 2009-10 onwards. The ratio of interest payment to revenue receipt is below the 12th Finance Commission prescribed limit of 15% since 2007-08. Similarly the ratio of Public Debt to GSDP is within the 25% limit prescribed by the 13th Finance Commission from 2008-09 onwards. During the last 5 years the average growth in Own Tax and Non-Tax Revenue has been about 18% in spite of the impact of recession in major part of the period.
3.2 Since 2011-12, we have been able to meet the committed expenditure towards salary, pension, interest payment and debt repayment out of the State’s own revenue.

3.3 Prudent management of State finances has created fiscal space for higher Plan investment. The annual plan outlay of the State has increased by about four times from ₹5105 crore in 2007-08 to ₹19367 crore in 2013-14.

3.4 We have been able to ensure adequate financial allocations for all essential expenditures and utilise additional resources generated to improve capital investment. In 2006-07, capital expenditure stood at ₹1451.47 crore which has gone up to ₹7861.41 crore in 2013-14 (Revised Estimates) by about six times.

3.5 The liquidity position has been managed very carefully by our State. It has not availed any ways and means advances or overdraft from the Reserve Bank of India since December, 2004.

4. Fiscal Position 2013-14

4.1 The fiscal position of the State Government continues to be very sound despite adverse economic environment. The State Government has been able to exceed the budget estimates for State’s own revenue. There has been substantial increase in Plan expenditure and expenditure in key sectors. It has been possible to enhance the capital investment substantially during the year.
4.2 The overall expenditure during the year has been managed well and the fiscal consolidation efforts of the State have ensured that all the fiscal indicators are kept well within the stipulated limits of Odisha Fiscal Responsibility and Budget Management Act, 2005.

4.3 In terms of our Revised Estimates, our Revenue Surplus is ₹1951.49 crore which is about 0.68% of GSDP. The Fiscal Deficit stands at ₹5923.05 crore which is 2.05% of the GSDP. The yearend debt stock to GSDP ratio is 14.68% of GSDP. The tax-GSDP ratio is 5.93%.

5. **Abstract of Budget Estimates of the Financial Year 2014-15**

The Budget Estimates for 2014-15 have been prepared in keeping with the promises made to people to fulfil the primary infrastructure needs in the areas of road communication, drinking water, electrification, irrigation, agriculture, education and Healthcare. We have also renewed our commitment to provide shelter for all, food security, empowerment of the youth, women, Scheduled Castes and Tribes. Fiscal targets in accordance with the recommendations of the 13th Finance Commission and the prescriptions of the Fiscal Responsibility and Budget Management Act, 2005 are also being proposed to be met.

5.1 Estimates of the State’s own revenue receipts have been made on the basis of the trend of collection of the previous year. With regard to the devolution of Central Taxes, we have adopted the assessment of the 13th Finance Commission. The quantum of central support for the State Plan has been estimated on the basis of the official level
discussion with the Planning Commission and indications received from the line Ministries of Government of India.

5.2 Based on the anticipated receipt of State’s share in central taxes, State’s own tax and non-tax revenue and grants from Centre, the Revenue Receipt for the year 2014-15 has been estimated at ₹67,146.96 crore. For the year 2014-15, our own tax and non-tax revenue has been estimated at ₹27,886.65 crore, which is 13.45% more than the Revised Estimate for 2013-14. We propose to achieve Tax/GSDP ratio of 6.09% in 2014-15 compared to Revised Estimates of 5.93% in 2013-14.

5.3 The Non-Plan expenditure estimated at ₹40,711.01 crore includes provision of ₹14,980.71 crore, ₹7,804.48 crore, ₹4,729.18 crore and ₹4,130.59 crore towards salaries, pension, interest payment and maintenance of capital assets respectively.

5.4 The outlay for the State’s Annual Plan has been fixed at ₹40,810 crore for the financial year 2014-15, which includes an outlay of ₹38,810 crore for the Government sector and ₹2,000 crore for the Public Sector Undertakings. The growth in State Plan allocation for the year 2014-15 is more than 100% over the previous year.

5.5 Consequent upon restructuring of existing Centrally Sponsored Schemes (CSS) into 66 CSS, Planning Commission has decided to classify the Central Share of all CSS as Central Assistance for State Plan. Financial resources under State Plan towards Central Assistance for the 66 CSS is estimated at ₹11,513.01 crore. Even if we take out the Central
Assistance for the 66 CSS, the State Plan outlay is proposed to be stepped up by 41%.

5.6 The total expenditure proposed in the Budget Estimates for 2014-15 including Debt repayment is ₹80,139.58 crore. The Non-Plan expenditure is estimated at ₹40,711.01 crore with an increase of 7.30% over the Budget Estimates for 2013-14. The State Plan, Central Plan and Centrally Sponsored Plan expenditure have been estimated at ₹38,810 crore, ₹609.42 crore and ₹9.15 crore respectively totalling to ₹39,428.57 crore, which represents an increase of about 72% over the Revised outlay for the year 2013-14.

Let me now enumerate some qualitative aspects of the Budget Estimates for 2014-15.

5.7 Capital component of our Government expenditure has stagnated at around 1.5 to 2.2% of our GSDP during the past 10 years. Acceleration of the growth momentum of the economy will require larger quantum of Capital investment. Keeping this in view, Capital investment in our budget has been stepped up by about 70% over Revised Estimates for 2013-14. With this increased allocation, it is estimated that the capital expenditure would go up to 4.19% of the GSDP. Besides Loans and Advances given, grants for creation of capital assets and other expenditure for capital formation put together account for ₹10304.92 crore which is 3.16% of GSDP. Allocations for maintenance and upkeep of Capital assets have also been enhanced by 15% from ₹3,591.82 crore to ₹4,130.59 crore. With increase in Plan investment, the share in Plan outlay is increasing in recent years. The
Plan: Non Plan ratio has gone up from 27% in 2006-07 to 97% in 2014-15. All these factors point to a remarkable improvement in the quality of our public expenditure.

5.8 The Budgeted Expenditure for 2014-15 will be financed through estimated revenue receipts of ₹67,146.96 crore, recovery of loans and advances of ₹240.29 crore and borrowing and other receipts of ₹12,752.32 crore. The Revenue Surplus would be of the order of ₹4265.55 crore, i.e. 1.31% of GSDP. The State's dependence on borrowing has been reduced with net borrowing estimated at ₹8,640.22 crore for Financial Year 2014-15 which is only 2.65% of GSDP. However, a part of the fiscal deficit would be financed through the net surplus from Public Account and remain at 2.98%.

6. Sectoral Highlights

It is my pleasure to mention here that, this budget emphasizes implementation of policy measures indicated in our manifesto. Substantially higher allocations have been made for all departments for implementation of various development and welfare oriented schemes. Now, I wish to enumerate some highlights of expenditure proposals under some major sectors.

6.1 Social Services

6.1.1 Health and Family Welfare Department

We have been striving to provide Health Security for all through provision of affordable quality health care to the people of the State. Efforts have also been made to reduce the out of pocket expenditure for
health care by providing funds for supply of medicine & diet in the Government run hospitals and assistance from Odisha State Treatment Fund. Accordingly, budgetary allocation for Health and Family Welfare Department has been substantially stepped up. Total amount of ₹3,897.74 crore has been provided under both Plan and Non-Plan which is about 65% more than the last year’s allocation.

Now, I turn to provisions for important schemes.

- **Universal free distribution of medicine:** The State Government has decided to put in place a mechanism for universal free distribution of medicine to citizens with help of Odisha State Medical Services Corporation which will handle procurement of drugs in an efficient and cost effective manner. While ₹5.00 crore has been provided towards paid up capital of the Corporation, an amount of ₹202.56 crore have been allocated for purchase of drugs.

₹51.91 crore has been provided in the Budget for Odisha Legislative Assembly. This includes provision of ₹20.00 lakh for Health Insurance Scheme for the Ex-MLAs.
7. **Puri Nabakalebar -2015**

7.1 The Temple of Lord Jagannath occupies a special place in the religious and cultural life of Odisha. The most important event in the culture of Lord Jagannath is the Nabakalebar ceremony which takes place every twelve to nineteen years. It is a ritual followed for centuries and associated with the Jagannath Temple when the deities leave their old form and assume new ones. The next Nabakalebar is scheduled in the year 2015 and the State of Odisha is gearing up for this momentous occasion when around 50 lakh pilgrims, visitors and tourists are expected to congregate at Puri town.

7.2 A large number of projects are lined up covering new infrastructure development and strengthening of existing services and amenities. Provision of drinking water, sanitation, sewerage, drainage, expansion of grid stations and distribution network for supply of electricity, augmentation of road network, improvement of railway station, etc. are of critical importance.

7.3 Adequate focus is given in this Budget for making the Nabakalebar-2015 a successful event.

8. **Institutional Reforms for better Financial Management**

8.1 The State Government has taken a number of the initiatives for better financial management and improvement in the quality of public expenditure. I would like to highlight a few more citizen centric e-services launched by the Finance Department.

8.2 **Integrated Financial Management System (iFMS):** Under the Mission Mode Project Treasury Computerisation of National
e-Governance Action Plan (NeGP), it has been decided to put in place a common platform, i.e. Integrated Financial Management System for all financial transactions of the State Government across all Departments. The existing Integrated Odisha Treasury Management System will evolve into a full-fledged Integrated Financial Management Information System. In other words it will be a computerised and automated financial management system covering key aspects of budget formulation, budget execution and operation across all agencies of the State Government. The computerised system of iFMS will enable, prompt and efficient access to reliable financial data, and strengthen financial control mechanism in Government through a centralised system. It will help enhance the budget process to higher level of transparency and accountability. It will also be integrated with the HRMS, and WAMIS. IFMs will provide information for budget planning, analysis, reporting and preparation of financial statements, audit trail and tracking compliance to audit observations.

8.3 In order to improve efficiency and transparency in tax administration and hassle free business environment, Commercial Tax Organisation of our State is providing a number of e-Services to the dealers for payment of taxes, filing of returns, registration, amendment of registration certificate and issue of Way bills and statutory forms. More such business centric e-services are proposed to be rolled out in near future. Besides, business intelligence tools will be applied for improving voluntary tax compliance and for tracking tax evasion.
9. Right to Public Services

Odisha Right to Public Services Act, 2012 approved by this august House reflects our strong commitment to ensure efficiency, transparency, timeliness and accountability in provision of basic services to the citizens in a time bound manner. More services have been brought under the scope of the Act. The current scope covers 73 services across 10 departments.

10. Budget Estimates - Compliance with the FRBM Targets

10.1 The Odisha Fiscal Responsibility and Budget Management (FRBM) Act mandates the State Government to maintain revenue balance, contain fiscal deficit within 3% of GSDP and limit the debt to GSDP ratio at 29.5% in 2014-15. All the three fiscal indicators have been kept well within the FRBM targets in the Budget Estimates for 2014-15.

10.2 The total revenue expenditure is estimated at ₹62,881.42 crore during the financial year 2014-15. Thus, after achieving revenue balance, a surplus of ₹4,265.55 crore has been projected in the Budget Estimates for 2014-15 which is 1.31% of GSDP. The Fiscal Deficit is projected at ₹9,696.83 crore which is 2.98% of GSDP.

10.3 The year end debt stock for the financial year 2014-15 is estimated at ₹50,986.83 crore which is 15.64% of GSDP.
11. Tax Proposal

11.1 During past 13 years, we have emphasized on broadening the tax base and enhancing the tax/GSDP ratio through better tax administration. During the period, the ratio has improved from about 4% to 6%. However, owing to recession in the economy, the ratio has almost stagnated for last 3-4 years. For reviving growth momentum in the State economy, there is need for additional resource mobilisation. In absence of favourable and supportive Central policies, the State is deprived of adequate revenue from our mineral resources. Government of Odisha is losing nearly ₹5 crore per day due to delay in revision of the mineral royalty rates from 10% to 15% as recommended by the Study Group set up by the Central Government and dead rents which were to be revised with effect from August 2012.

11.2 Besides, additional resource mobilization measure announced by the State Government in the last year’s Budget Speech for revision of the stamp duty on instruments of mining lease and renewal of mining leases through amendment of the Indian Stamp Act, 1899 has been challenged in the Court. The State Government could not realize any revenue from this source.

11.3 The size of budget this year has increased substantially due to higher allocation on the existing schemes and launching of several new schemes. For example, the allocation on our flagship programme ‘Mo Kudia’ has been enhanced by ₹230 crore. Similarly, the newly launched
'Mukhya Mantri Sadak Yojana' has been provided with allocation of ₹150 crore. All these measures require additional resources.

11.4 In order to augment the revenues of the State, I propose to raise the tax rate on liquor from 20% to 25% and also to restore the tax rate on petrol and diesel from 18% to 20%. The enhanced rate of tax on foreign liquor is based on the premise of ability to pay. The Empowered Committee of State Finance Ministers have recommended minimum tax rate of 20% on petrol and diesel. Further, the price of petrol and diesel in our State being lower than the prevailing price in most other States the increase in the rate will bring parity with the neighbouring States. These two measures will fetch additional revenue of ₹375.00 crore per annum.

12. Conclusion

Hon'ble Speaker Sir, I have tried to strike a balance between fiscal prudence and people's expectations. I dedicate this budget for all round development of the State and welfare of its people.

I, once again extend my sincere thanks to you, the Leader of the House, Hon'ble Chief Minister, Hon'ble Leader of Opposition and all Hon'ble members of this august House for giving me a patient hearing.
