OFFICE MEMORANDUM

Sub: Electronic disbursement of works expenditure of Irrigation Projects, Public works & Forest Divisions directly into the Bank Account of the payees in place of paper based cheque.

Drawal and disbursement of works expenditure in Irrigation Projects, Public Works & Forest Divisions, is made by means of cheque drawn upon the Banks and the Treasuries with which the concerned Divisions and Projects are authorised to carry on their receipt and payment transactions. The cheques handed over to third parties like the contractors and suppliers towards their claims are en-cashed through the normal clearing process, which takes time ranging from 2 to 7 days or more in case of outstation cheques. It involves a number of processes at various levels in the Divisions/Projects and Banks. The recipient is also required to collect the cheque from the Disburser and approach his Banker for collecting the proceeds of the cheque.

After successful roll out of electronic disbursement of all State Government Payments drawn through bills in the Treasuries, it is now decided to replace the system of drawal and disbursement of funds relating to works expenditure through paper based cheques, by account payee electronic cheques for direct credit of the proceeds to the payee’s Bank account without going through the clearing process.

However, keeping in view the need for re-engineering of the existing process and training of the personnel involved in switching over to account payee electronic cheque based payment system from the paper based cheque system, it is proposed to operationalize the electronic cheque based disbursement of works expenditure through the Bank account of the contractors, suppliers, vendors and other beneficiaries in select Divisions first and then extend it to other Divisions/Projects during the course of current financial year.
