P = Projet Estimate, Q = Quick Estimate, A = Advance Estimate

It is revealed from the above table that there has been a perceptible gap in the Per Capita income All India basis and per capita income of Orissa since 1950-51. This gap in per capita income at current prices was 77 points in 1950-51 which has subsequently gone up to 89 points in the year 1960-61, 156 points in 1970-71, 368 points in 1980-81, 2148 points in 1990-91, 7426 points in 2000-01 and 11577 points in 2008-09 (Advance Estimate). Similarly the gap in the per capita income at constant prices (At 1993-94 prices) was 287 points in 1950-51, 735 points in 1960-61, 740 points in 1970-71, 1203 points in 1980-81, 2952 points in 1990-91, 4744 points in 2000-01 and 5128 points in 2002-03 and in the year 2008-09 (Advance Estimate) at 1999-2000 prices the gap is 8716 points.

Orissa has achieved significant growth in GSDP, NSDP and Per Capita income from 1950-51 to 2008-09. Per Capita Income was Rs.178 in 1950-51 and it has gone upto Rs.26507 in 2008-09 (Advance Estimate) at current prices. The same trend is also observed in the Per Capita income growth at constant prices. The growth in All India Per Capita income (Per Capita N.N.P.) has gone up faster making the gap wider and wider over the years. In order to close this gap, there is need for much higher growth rate for GSDP than the national growth rate of GNP continuously for several years by the state.
